WORK EXPERIENCE

Graduate Reserach Assistant

Georgia Institute of Technology

August 2021 - Present

Making academic rearch more accessible by designing and creating solutions for the GVU Center in order to further the vision to “build computing solutions to social, scientific, and technical challenges,” to a much broader audience.

User Experience Design Intern

IBM

Summer 2021

Worked with a design team and stakeholders to develop a complex, business-viable solution for an incubator project revolving automation tools. Conducted intensive user research to relay solutions. Provided expertise from enterprise design thinking.

EXLAB Content Creator & Lab Assistant

Experimental Learning Labs at Georgia State University

August 2019 - Present

Work with digital team to create virtual and digital maker-space for EXLAB as Content Creator: Redesigned maker-space and led marketing and social media initiatives: Facilitated technological workshops and lead student projects as a lab assistant.
